

Telegraph.

Cable Despatches.

VIENNA, December 10.—The Emperor's address to the army says the country wants peace and we must maintain it. Austria and Hungary are now equally interested in the grandeur and security of the Empire.

LIVERPOOL, December 10.—The ship John Dancon, from New Brunswick for Liverpool, capsized in the Atlantic. The Captain, his wife and nine of the crew were lost.

VALLETTA, December 10.—A violent eruption. Torrents of lava devastated the surrounding country. Ashes were blown into the streets of Messina, and at last accounts the mountain was enveloped in smoke, with deafening detonations.

MADRID, December 10.—The insurgents at Cadiz occupy the Hotel de Ville and surrounding houses, and have erected barricades. The troops occupied the Custom House and buildings in the neighborhood of the city gate. All the foreign Consuls have taken refuge in the Custom House. The civil Governor of Cadiz fled to San Fernandez. The insurgents are conscripting all able-bodied men. The convicts and former rural guards joined the insurgents. The insurgents have plenty of money. The Governor of Saragossa telegraphs that the Republicans there attempted to release and arm the convicts, but the plot failed.

FLORENCE, December 10.—A despatch received here announces that the boat with the second officer of the Hibernia had arrived off Donegal Island, with the officer and two others. Twenty-five were drowned by the capsizing of the boat.

LONDON, December 10.—The Sultan has sent his ultimatum to Greece, demanding an answer in five days. France and England sustain the demand.

News Items.

New York, December 10.—The steamer Hibernia had seventeen cabin and 60 steerage passengers—making, with the crew, 150—of whom fifty-two were saved; the fate of the rest unknown. The Hibernia sunk 700 miles Westward of the Irish coast. The following is a list of the saved: A. Mason, Miss Rogerson, Catharine Boyle, George C. Forbes, Mrs. E. Morrill, Ann Webb, John A. Bethel, Mrs. Bethel, Patrick Brewer, Mrs. D. N. Mulvan, John Robinson, Bernard McFeeley, Rev. M. O. Connor, Joseph Cross and wife—all cabin passengers. Campbell Doreny, Rodgers Dicheit, John Moses, Tuscan McGown and wife, child and infant, McIntosh Irwin—all steerage passengers.

Grant and Farragut were entertained by the New York Union League. In the course of a brief speech, Grant said: "I must, however, express my acknowledgments to the Union League of this city, as well as to the Union Leagues of other cities, for the great benefits they conferred upon the Government, during the revolution through which we have passed of late years. I wish to acknowledge their liberality towards myself and toward the soldiers serving against the rebellion, and to thank them for it."

HAVANA, December 10.—There has been comparatively heavy fighting. The troops are withdrawing from the interior. Balmazda reports four officers killed and three wounded. The Diario reported another battle at Quantama, near Santiago de Cuba, in which Obiet was defeated, losing 60 killed and 200 wounded. Trade on the island is dull.

The announcement made of the arrival from Spain of Escobedo, with 1,000 troops, is premature.

Affairs in Washington.

WASHINGTON, December 10.—2 P. M.—In the House, the re-organization committees have been announced. Boutwell succeeds Stevens on the Reconstruction Committee and the Military Committee.

The Senate was engaged on a short contest in reference to the Indian Bureau bill. The friends of the bill favor its reference to the Military Committee; while its opponents desire the Indian Committee—among the latter are the Democrats.

In the Senate, the committee to investigate corrupt influence and procure impeachment votes, was renewed. Sumner's Georgia bill was referred to the Judiciary Committee. The bill restoring the Bureau of Indian Affairs was, after a sharp struggle, referred to the Committee on Indian Affairs. Several Senators intimated that if the bill went to the Indian Committee, it would never be heard of. Wilson moved to repeal the law compelling all military orders to pass through the hands of the General of the army, which was referred to the Military Committee. Hill's credentials were referred to the Judiciary Committee, with the papers and memorials in the case. Rice made an effort to put on its passage his bill arming the militia, but failed, and it was referred to the Military Committee. The conclusion of the message was then read, and the Senate adjourned to Monday.

8 P. M.—Eliot, of Massachusetts, succeeds Washburn as Chairman of the Committee on Commerce.

The Speaker announced the following additions to Committees: Commerce—Kellogg, of Alabama;

Reconstruction—Norris, of Alabama; Militia—Dewees, of North Carolina; Sypher, of Louisiana; Freedman's Affairs—Bowel, of South Carolina; Education and Labor—Whittemore, of South Carolina; Revolutionary Pensions—Jones, of North Carolina; Cliff, of Georgia; Blackburn, of Louisiana; Revolutionary Claims—Dockery, of North Carolina; Goss, of South Carolina; Edwards, of Georgia; Mileage—Young, of Georgia; Enrolled Bills—Collis, of Alabama; Expenditures in State Department—Lash, of North Carolina; Tift, of Georgia; Expenditures in Navy Department—Buckley, of Alabama; Gore, of Georgia; Expenditures in Post Office Department—Newsham, of Louisiana; Expenditures in Interior Department—Pierce, of Alabama; Prince, of Georgia; Expenditures in Public Buildings—Honghey, of Alabama. A bill relating to bridging navigable streams was argued at great length, and was finally referred to the Committee on Roads and Canals. A resolution for a recess from the 23d instant to the 4th January was adopted. The House adjourned to Monday.

Government expenses during November is as follows: Civil, \$2,852,000; interest on public debt, \$24,250,000; War, \$6,600,000; Navy, \$1,250,000; Interior, \$975,000. Increase of the public debt, \$11,902,000; currency in Treasury, \$18,250,000.

Office of Udolpho Wolfe,
Sole Importer of the
SCHIEDAM AROMATIC SCHNAPPS,
22 BRAY STREET, NEW YORK, Nov. 8, '88.
To the People of the Southern States.
When the pure medicinal restorative, now so widely known as WOLFE'S SCHIEDAM SCHNAPPS, was introduced into the world, under the endorsement of 4,000 leading members of the medical profession, some twenty years ago, its proprietor was well aware that it could not wholly escape the penalty attached to all new and useful preparations. He, therefore, endeavored to invest it with the strongest possible safeguard against counterfeiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were forwarded to 10,000 physicians, including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation and a report of the result, accompanied each specimen. 4,000 of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a preparation, they said, had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce; all of which were more or less adulterated, and, therefore, unfit for medicinal purposes. The peculiar excellence and strength of the oil of juniper, which formed one of the principal ingredients of the Schnapps, together with an unalloyed character of the alcoholic element, gave it, in the estimation of the faculty, a marked superiority over every other diffusive stimulant as a diuretic, tonic and restorative.

These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the Schnapps, as one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a fac simile of the proprietor's autograph signature was attached to each label and cover, his name and that of the preparation were embossed on the bottles, and the corks were sealed with his private seal. No article had ever been sold in this country under the name of Schnapps prior to the introduction of Wolfe's Schiedam Aromatic Schnapps, in 1851; and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York during that year.

It might be supposed, by persons unacquainted with the character of the pirates who prey upon the reputation of honorable merchants, by vending deleterious trash under their name, that the protections so carefully thrown around these Schnapps would have precluded the introductions and sale of counterfeits. They seem, however, only to have stimulated the rapacity of impostors. The trade mark of the proprietor has been stolen; the endorsement which his Schiedam Aromatic Schnapps alone received from the medical profession has been claimed by mendacious humbugs; his labels and bottles have been imitated; his advertisements paraphrased, his circulars copied, and, worse than all, dishonest retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for poison.

The public, the medical profession and the sick, for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested with the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned, in Schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequalled purity. By a process unknown in the preparation of any other liquor, it is freed from every acrimonious and corrosive element.

Complaints have been received from the leading physicians and families in the Southern States, of the sale of cheap imitations of the Schiedam Aromatic Schnapps in these markets; and travelers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, testify that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary. The agent of the undersigned has been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In conclusion, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unsuerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousands of dollars in surrounding it with guarantees and safeguards, which he designed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis, comparison, and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trade mark, has come off triumphant. He, therefore, feels it a duty he owes to his fellow-citizens generally, to the medical profession and to the sick, to denounce and expose the CHARLES who counterfeit these evidences of identity, and he calls upon the press and the public to aid him in his efforts to remedy so great an evil.

The following letters and certificates, from the leading physicians and chemists of this city, will prove to the reader that all goods sold by the undersigned are all they are represented to be.

UDOLPHO WOLFE.

I feel bound to say, that I regard your Schnapps as being, in every respect, pre-eminently pure, and deserving of medical patronage. At all events, it is the purest possible article of Holland Gin, heretofore unobtainable; and, as such, may be safely prescribed by physicians.

DAVID L. MOTT, M. D.,
Pharmaceutical Chemist, New York.

26 PINE STREET, NEW YORK,
November 21, 1887.

Udolpho Wolfe, Esq., Present.
DEAR SIR: I have made a chemical examination of a sample of your Schiedam Schnapps, with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits. The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are employed

in the adulteration of liquors. I would not hesitate to use myself, or to recommend to others, for medicinal purposes, the Schiedam Schnapps as an excellent and unobjectionable variety of gin. Very respectfully yours,
(Signed,) CHARLES A. SEELY,
Chemist.

NEW YORK, 53 CEDAR STREET,
November 20, 1887.

Udolpho Wolfe, Esq., Present.
DEAR SIR: I have submitted to chemical analysis two bottles of Schiedam Schnapps, which I took from a fresh package in your bonded warehouse, and find, as before, that the spirituous liquor is free from injurious ingredients or falsification; that it has the marks of being aged and not recently prepared by mechanical admixture of alcohol and aromatics. Respectfully,
FRED. F. MAYER, Chemist.

NEW YORK, Tuesday, May 1.

Udolpho Wolfe, Esq., Present.
DEAR SIR: The want of pure Wines and Liquors, for medicinal purposes, has been long felt by the profession, and thousands of lives have been sacrificed by the use of adulterated articles. Delirium tremens, and other diseases of the brain and nerves, so rare in this country, are very rare in Europe; owing, in a great degree, to the difference in the purity of the spirits sold. We have tested the several articles imported and sold by you, including your Gin, which you sell under the name of Aromatic Schiedam Schnapps, which we consider justly entitled to the high reputation it has acquired in this country; and, from your long experience as a foreign importer, your Bottled Wines and Liquors should meet with the same demand. We would recommend you to appoint some of the respectable apothecaries in different parts of the city as agents for the sale of your Brandy and Wines, where the profession can obtain the same when needed for medicinal purposes. We wish you success in your new enterprise, and remain, Sir, obedient servants.

VALENTINE MOTT, M. D., Professor of Surgery, University Medical College, New York.

J. M. CARNOCHAN, M. D., Professor of Clinical Surgery, Surgeon-in-Chief to the State Hospital, etc., No. 14 East 16th street.

Another Extraordinary Case Cured.

HEINTSH'S QUEEN'S DELIGHT is the wonder of medical science. More positive cures have been made with it than any other known medicine. Disease, the hydra-headed monster, rears its crest and darts its poisoned fangs in vain—disarmed of its terror, baffled in its advances upon health, utterly destroyed by the extraordinary and miraculous powers of the Queen's Delight! The following case has been reported to the Proprietor: A sore leg—a very common disease—of an exanthematic character, so bad, so difficult of healing that life was despaired of, twenty-five years standing, obstinate, resisting all other known treatment, yields to the powers of the Queen's Delight. Only six bottles, at a cost of \$5, cures a disease which cost twenty-five years of treatment and much pain and distress of body and mind. For diseases of the blood Heintsh's Queen's Delight has proven to be the most efficacious medicine yet discovered. For sale by all druggists. Wholesale agents
FISHER & HEINTSH,
